

The Bradley Original Smoker

Automatic Electric Food Smoker

BS611 4-Rack Model

BS815XLT 6-Rack Model

For 30 years, Bradley has created easy-to-use, world-class food smokers that deliver consistent results. The Bradley Original Smoker is our classic smoker, which has lasted the test of time. It features our unique automatic feed system, and separate burners for smoke and heat, so you can produce hot or cold smoked food.

It's All About Flavor

By extinguishing the wood automatically before it turns to ash, Bradley smokers control how the wood burns, using time and temperature to consistently create the most delicious smoked food possible.

KEY FEATURES

FULLY AUTOMATIC SMOKE

No need to babysit your smoker, refilling it with chips constantly. Simply load it up with Bradley Flavor Bisquettes® and smoke for up to 9 hours.

PRACTICAL DESIGN

Stainless steel interior and a magnetic door seal for easy clean-up, and to keep the smoke where it's supposed to be.

FULLY INSULATED

Insulation in the entire cabinet and door keeps heat in, but also lets you use your smoker wherever you like without the risk of heat damage to surrounding surfaces.

VERSATILE COOKING

Bradley Smokers have 2 heat elements: 1 for the oven heat and 1 solely to create smoke. Cook with or without smoke, or smoke with or without heat. Your smoker can even become a cold smoker, an oven or a dehydrator.

EASY TO USE

Turn it on, load it with wood and set the temperature.

HIGH CAPACITY

Available in a 4-rack size (BS611) and a larger 6-rack size (BS815XLT).

WARRANTY

One year warranty included.
