

Bradley Premium Bisquettes

24-Pack (BTBR24)

24-Pack (BTSG24)

For decades, Bradley Smoker has offered a wide array of flavorful hardwood bisquettes, perfect for adding great taste and aroma to any food that you want to smoke. Bradley Premium Bisquettes are the next evolution of wood bisquettes, made even better with the added bonus of herbs and spices. Just like Bradley Flavor Bisquettes®, they can be used in a Bradley Smoker, or on any grill.

It's All About Flavor

Bradley Premium Bisquettes are created from the finest hardwoods, with herbs and spices. Unlike wood chunks or sawdust, these bisquettes are made to exacting standards using controlled pressure and density, creating the best smoked flavor possible. This means smoke burns more evenly, and leads to better tasting results.

Bradley Premium Bisquettes are perfect to use in a Bradley Smoker, or any grill or barbecue.

Add a great smoky taste to any food, easily without foil packets or smoker boxes, and without the hassle of mixing wet and dry wood chips. Simply place Bradley Smoking Bisquettes directly on the grill surface. When they start to smoke, close the lid or door and let the smoke envelop and flavor your food.

- 1** Preheat your barbecue or grill

- 2** Place bisquettes directly on grill

- 3** Add your favorite food and cook
